

## Course Description

Category “A” situations leave no room for error and demand a high degree of readiness to ensure mission success. Confidence and experience through training is the only way to prepare for Cat A situations. Zero Point Instructors have pioneered techniques and equipment through years of operational and training experience that can benefit all EOD technicians who may be faced with a Category “A” scenario. This course is structured to teach advance techniques, strategies, and provide guidance to better prepare EOD Technicians to quickly bring a dangerous situation to a close effectively and safely. Zero Point offers the AET course in a 5 or 9 day version with an emphasis on practical applications.

## Course Deliverables

(up to 10 participants)

- Four instructors and 5 or 9 days of instruction
- Student guides and CD-ROM (electronic handout of reference material and student guide)
- Zero Point REF (Rapid EOD facts) Sheets
- Zero Point E-Kit (Electronics Tool Kit)
- All required representative training devices
- Electronic components, circuit boards and materials access containers
- All required dynamic tool containers and disruptor rounds

## Training Topics

- *Threat Assessment in Category “A” situations*
- *Manual Access equipment and techniques*
- *Advance IED Electronics*
- *Circuit Diagnostics and diagnostic equipment*
- *Detonator defeat and equipment*
- *Hostage handling techniques*
- *Intrusion Detection System recognition and defeat*
- *Precision disruption principles and dynamic tools*
- *Precision X-ray techniques and equipment*
