

Course Description

EOD integration into tactical operations has become a requirement in law enforcement. The tactical operations course is designed to provide an advance level of training for EOD technicians in support of tactical operations. This course is designed around decades of EOD experience in training and operations supporting special operations units.

The Tactical EOD Operations course is 9 days in length consisting of more than 70% practical training which promotes maximum retention of information and increases the scope of experience. This training will provide EOD Operators with the opportunity to refine skill sets to support missions in dynamic and challenging operational environments.
